

LIVE SCORES

Live scores is an online tool that allows administrators and team managers to record scores in real time while at the game via their mobile phone or tablet.

It allows live scores to be published to the league website including play by play actions.

To use live scores you will need to register for a SP Passport with SportsTC, if you haven't already.

You will also need your club or league administrator to give you access to your teams database for result entry.

LIVE SCORES

If you are a team manager you can access your teams live scores by signing into Sports TG (just as if you would to create your team sheet or enter final results).

Locate the game you want to use live scoring for and once you have found it click "AT GAME"

The screenshot displays a web interface for managing sports matches. At the top right, there is a green button labeled 'UPDATE LOCK STATUS' and a search box with the placeholder text 'Quick filter matches by text:'. Below this is a table with the following columns: 'Competition', 'Match Date Time', 'Venue', 'Lock', and three action buttons: 'PRE GAME', 'AT GAME', and 'POST GAME'. The 'AT GAME' button for the first row is highlighted with a red rectangle. The first row of data shows a match in the 'Strathmore Community Bank Premier Division' on '09/04/2016 14:15' at 'Hansen Res'.
